

2020 THE 4TH ICPESA

The 4th International Conference on Power Electronics Systems and Applications (ICPESA 2020) will be held at Kitakyushu, Japan during August 7-9, 2020.

The conference is co-located with ICCSD 2020 conference, providing the audiences the possibility of communication with related researchers. ICPESA aims to be a high quality conference which opens up the opportunity for academics and industrial professionals worldwide to exchange their knowledge of the state-of-the-art power electronics and applications.

CALL FOR PAPERS

Kitakyushu, Japan | August 7-9

Proceedings

Accepted papers will be included in the ICCSD 2020 Proceedings and will be submitted for inclusion to **Scopus and Ei compendex** indexing base.

Topics

are interested but not limited to:

- Power converter topologies and design
- Wide bandgap semiconductor technologies
- Electrical machines, motor drives and motion control
- Modeling, simulation and control in power electronics
- Motor drives & motion control
- Analysis & design of electrical machines
- Hard-switching & soft-switching static power converters & UPS
- Applications of power electronics in power system
- Electromagnetic compatibility (EMC)
- Electromagnetic interference (EMI)
- Traction & automotive systems
- Power electronics in renewable energy systems
- Power electronics in smart grid and utility applications
- Modelling & simulation in power electronics
- Power electronics related education/professional development
- Bio-medical power electronics
- Telecommunications power supplies
- Micro-electromagnetical systems (MEMS)
- Power electronic emerging technologies
- Power electronics in lighting applications
- Industrial, commercial & residential applications of power electronics

Important Dates

Submission Deadline April 10th, 2020

Acceptance Notification April 30th, 2020

Registration Deadline May 20th, 2020

Camera-Ready Deadline May 30th, 2020
